WORK EXPERIENCE

React Native Developer
DVS Software
06/2020 - 06/2021
Tasks

- Revised, modularized and updated old code bases to modern development standards and improving functionality.
- Collaboroted with development team to select ambitious, but realistic coding milestones on pre-release software project development.

PROJECTS

Google Play Store (Personal) (03/2021 - 05/2021)
- A project gets ideas from Google Play store with similar function from the real page, you can download any free or charged apps (just a text file), upload your own apps as a developer, manage the hole page as an admin, etc. This project got me a 10 for my final term project.
- The project was made by HTML, CSS, Javascript, Jquery, Bootsrap for frontend and PHP for backend.
- To experience it for yourself, check out my porfolio website.

YHL Moblile App (06/2020 - 08/2020)
- My first project as a company employee. The application was created for business purpose by selling cosmetics.
- Fixed interface and function bugs, also working with backend team to created new functions for the application.
- The application was made by React Native.

Gas grab (08/2020 - 09/2020)
- Gas delivery service applications for customers and delivery man's application.
- Making the guide map for delivery man and customers using with Google map API was one of my biggest tasks.
- The application was made by React Native.

UTC 2 Teachers and Students Apps (11/2020 - 06/2021)
- Two applications for teachers and students in UTC 2 University.
- Created functions like log in/out, visualize schedule for teachers and students, receive notifications, register course, documents scanning, etc.
- The application was made by React Native.

...
